

- 14-yard portable waste compactor
- Paddle type – Ideal for wet waste
- Programmable logical controller
- 75% full light and 100% full light
- Gas-pressurized balanced lid
- Retaining claws
- 37 tonne compaction force
- Range of loading hoppers available including bespoke systems
- 12 months' parts & labour warranty

The KPW 14 offers high performance compaction with a small footprint and low maintenance. This machine is leak proof making it perfect for the disposal of waste materials with high water content. The KPW 14 comes as standard with oscillating steel scrapers and maintenance free fully guided press head to reduce wear, waste build up and cleaning.

Model	KPW 14	
Container volume	m3	12
Internal container length*	mm	4.330
Maximum length	mm	4.510
Compactor width	mm	1.970
Compactor height	mm	2.410
Filling opening	mm	1.170 x 1.390
Filling height	mm	1.365
Compaction force	to	37
Compaction force	kN	370
Ram height	mm	300
Penetration of ram	mm	325
Cycle time	sec	42
Volume per stroke	m3	0,42
Volume per hour	m3	38,0
Dead weight	Kg	3.650
Total weight	Kg	12.000
Motor rating	kW	5,5
Power connection	mm2	5x2,5
Cekon-plug (CEE)	A	32
