

- 14-yard portable waste compactor
- Programmable logical controller
- 75% full light and 100% full light
- Gas-pressurized balanced lid
- Retaining claws
- 30 tonne compaction force
- Range of loading hoppers available including bespoke systems
- 12 months' parts & labour warranty
- Stress engineered body

The KP 14 offers high performance compaction with a small footprint and low maintenance. A reliable and proven machine that can be used to compact commercial or industrial waste and even recyclable materials such as cardboard. The KP 14 comes as standard with oscillating steel scrapers and maintenance free fully guided press head to reduce wear, waste build up and cleaning.

Model	KP 14	
Container volume	m3	12
Internal container length*	mm	4.515
Maximum length	mm	4.700
Compactor width	mm	1.960
Compactor height	mm	2.450
Feed opening	mm	1.165 x 1.655
Filling opening	mm	900 x 1.655
Filling height	mm	1.500
Compaction force	to	30
Compaction force	kN	300
Ram face pressure in	to/m	27
Ram stroke	mm	1.040
Ram height	mm	730
Penetration of ram	mm	200
Cycle time	sec	38
Volume per stroke	m3	1,1
Volume per hour	m3	105,0
Compaction camber floor	steel	S 355
Dead weight	Kg	3.600
Total weight	Kg	12.000
Motor rating	kW	4,0
Power connection	mm2	5x2,5
Cekon-plug (CEE)	A	32
