

- Heavy duty portable waste compactor
- Programmable logical controller
- 75% full light and 100% full light
- Bin lifting mechanism feed option
- Retaining claws
- 34 tonne compaction force
- Range of loading hoppers available including bespoke systems
- 12 months' parts & labour warranty
- Stress engineered body

The KP 32 offers high performance compaction and is ideal when dealing with medium to large volumes of waste. A robust machine that can be used to compact commercial or industrial waste and even recyclable materials such as cardboard. The KP 32 comes as standard with oscillating steel scrapers and maintenance free fully guided press head to reduce wear, waste build up and cleaning.

Model	KP 32	
Container volume	m3	20
Internal container length*	mm	5.840
Length with front hook	mm	6.360
Maximum length	mm	6.515
Compactor width	mm	2.500
Compactor height	mm	2.600
Feed opening	mm	1.485 x 1.880
Filling opening	mm	1.165 x 1.880
Filling height	mm	1.470
Compaction force	to	34
Compaction force	kN	340
Ram stroke	mm	1.340
Ram height	mm	600
Penetration of ram	mm	215
Cycle time	sec	42
Volume per stroke	m3	1,3
Volume per hour	m3	112
Compaction camber floor		S 355
Dead weight	Kg	4.600
Total weight	Kg	15.000
Motor rating	kW	5,5
Power connection	mm2	5x2,5
Cekon-plug (CEE)	A	32
