

- Heavy duty portable waste compactor
- Paddle type – Ideal for wet waste
- Programmable logical controller
- 75% full light and 100% full light
- Bin lifting mechanism feed option
- Retaining claws
- 37 tonne compaction force
- Range of loading hoppers available including bespoke systems
- 12 months' parts & labour warranty
- Stress engineered body

The KPW 32 offers high performance compaction and is ideal when dealing with medium to large volumes of waste. This machine is ideal for large amounts of waste material with a high water content. The KPW 32 comes as standard with oscillating steel scrapers and maintenance free fully guided press head to reduce wear, waste build up and cleaning.

Model	KPW 32	
Container volume	m3	20
Internal container length*	mm	5.580
Maximum length	mm	5.850
Compactor width	mm	2.500
Compactor height	mm	2.600
Filling opening	mm	1.170 x 1.720
Filling height	mm	1.530
Compaction force	to	37
Compaction force	kN	370
Ram height	mm	300
Penetration of ram	mm	325
Cycle time	sec	35
Volume per stroke	m3	0,8
Volume per hour	m3	80,0
Dead weight	Kg	4.550
Total weight	Kg	15.000
Motor rating	kW	5,5
Power connection	mm2	5x2,5
Cekon-plug (CEE)	A	32
